

## ENABLING FUTURE PROOFED PRODUCT DESIGN AND PRODUCT PLANNING DIGITALIZATION – TRANSFORMATION

### Your Digitalization Partner:

PhoenixPLM is the connection between traditional manufacturing and digital manufacturing – digitalization and automation. Gone are the days where each part of the manufacturing process such as design, engineering and testing were set upon individually. Today businesses require decentralized decision making, communicative systems and information transparency. Our advanced team of specialists are dedicated to making you operate efficiently in today's digital manufacturing world.
